

# ENVIRONMENTAL POLICY

AEROMECA, a reference Company in the maintenance, repair and overhaul of aircraft and components, has decided to implement an Environmental Management System based on the NP EN ISO 14001 requirements.

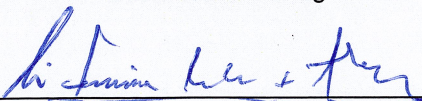

AEROMECA is committed through the implementation of this System to follow the best and most sustainable practices and legal requirements continuously managing all environmental aspects, risks and emergencies.

AEROMECA is committed to:

- ❖ Abiding by all applicable environmental legislation requirements that it voluntarily subscribes to.
- ❖ Promoting an efficient and sustainable use of natural resources.
- ❖ Managing the waste produced by AEROMECA's activities responsibly, thereby enhancing its value.
- ❖ The continuous improvement of the Environmental Management System in order to raise its performance.
- ❖ Identifying, controlling and minimizing all environmental aspects of the company and the associated risks and impacts, in order to establish a precautionary approach, protecting the Environment and preventing pollution.
- ❖ Raising awareness through continuous communication and effective training sessions on Environmental Management System as well as providing the necessary resources for efficient performance of the System.
- ❖ Promoting a corporate culture, where business initiatives and activities are consistent with environmental responsibility.
